DETAILED ACTION

Drawings

Figures 10 and 11A-C should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Response to Amendment

The examiner acknowledges the cancellation of claims 1-10 and the addition of new claims 11-18.

Allowable Subject Matter

Claims 11-18 are allowed.

The following is an examiner's statement of reasons for allowance:

The independent claims, 11-12, and 15, have been amended to include subject matter previously indicated as being allowable. The examiner notes the amended claims 11 and 15 recite the limitation "the rate of change in fall time divided by the rate of change in rise time is at least 1.3"; whereas the previously indicated allowable subject

matter had the ratio reversed (see original claims 5-6). This limitation is still believed to be allowable, as it was not found to be taught in the prior art.

The remaining claims are allowable as they depend from the claims indicated above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
